

To Public Health Committee members: I urge you to oppose both of these bills. In my opinion everything government does makes things worse. Criminal violence is a condition of the heart. Before kingdoms can change, men must change. Lack of morals, a strong traditional family unit, and fear of God along with a broken criminal justice system are the root of the problem. Both of these bills will only be a waste of time and resources. Feel good and politically correct, solving nothing. Mike Santangelo, Prospect
